At Wexhaus,
we believe your
home should be a
sanctuary, a place
where life's precious
moments can be
celebrated and
cherished.

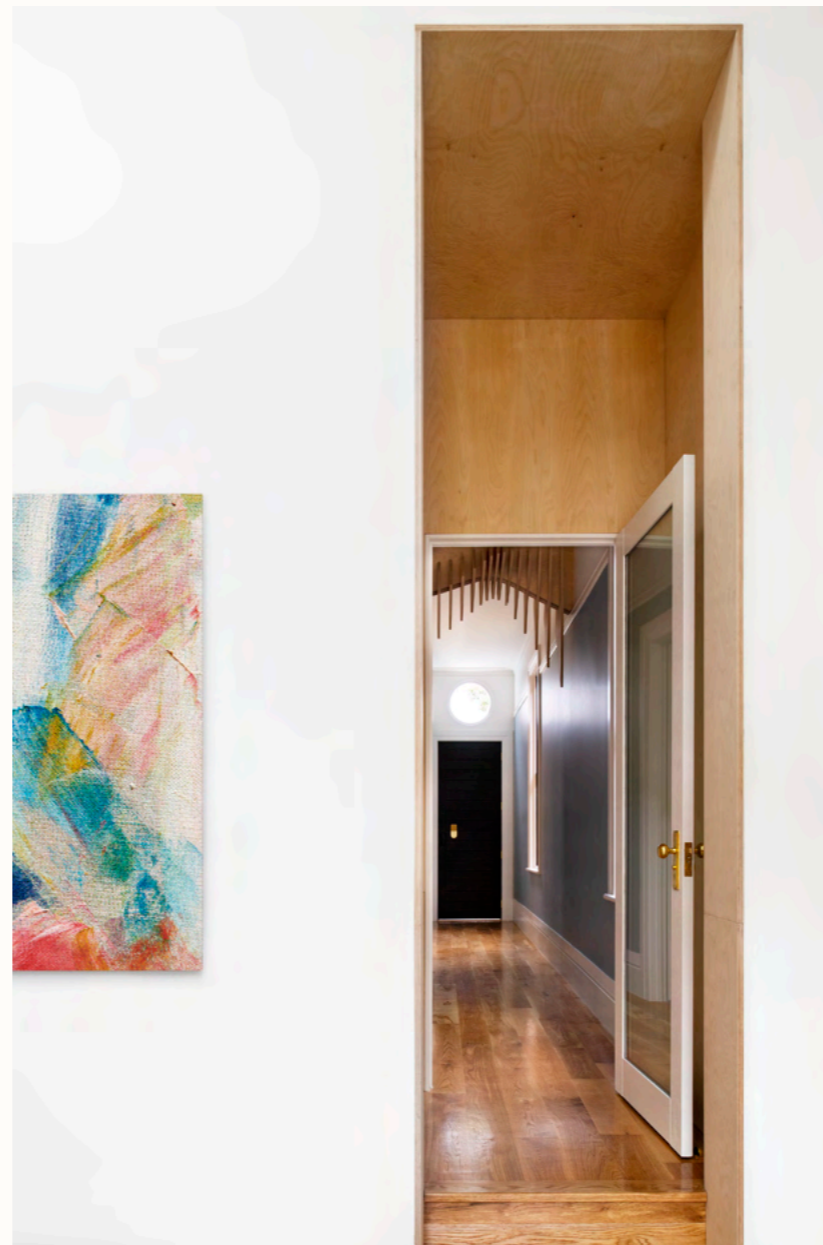

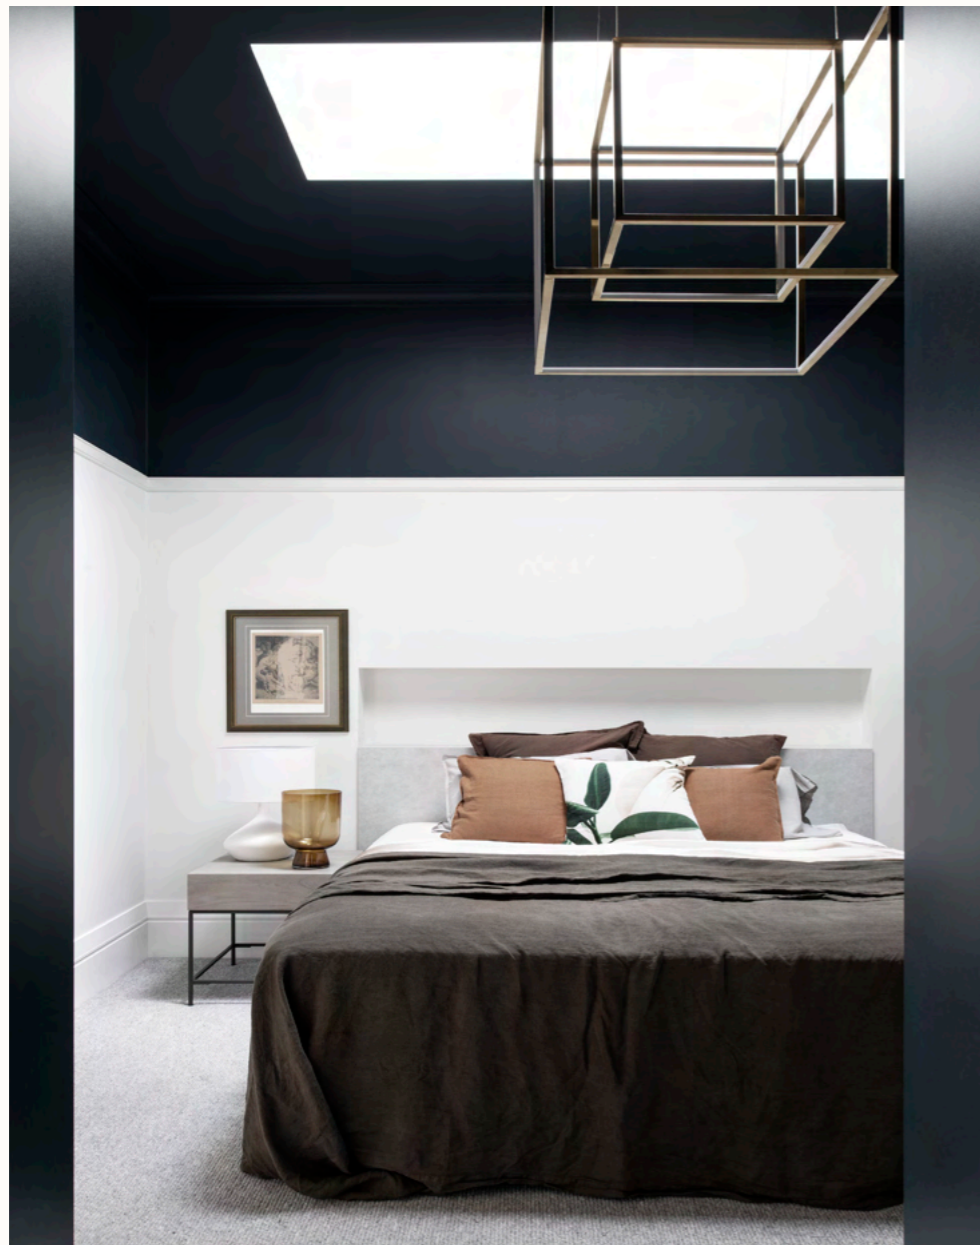

We have over a decade of experience working with heritage buildings.

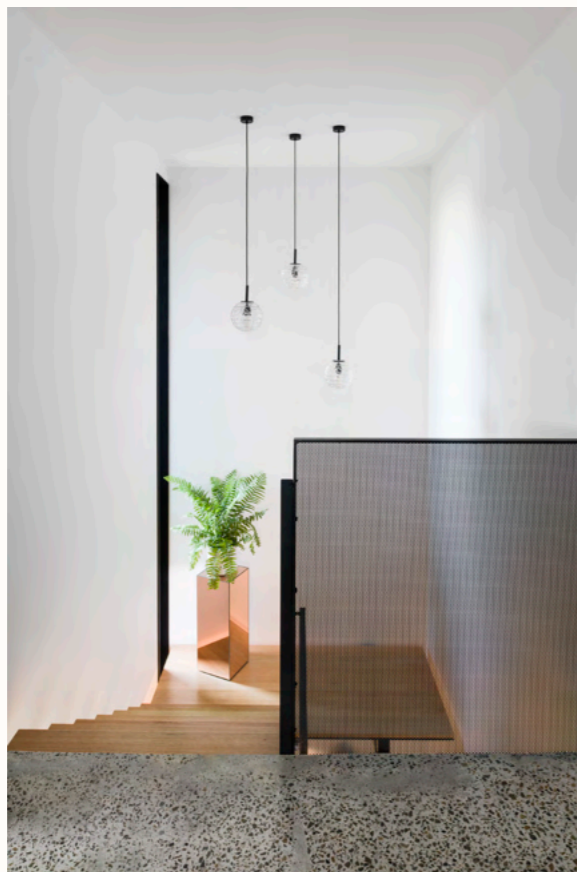

Our knowledge and sensibility empower us to develop designs in a considered and delicate manner, elevating and honouring the original structure, whilst maintaining its unique and distinct charm.

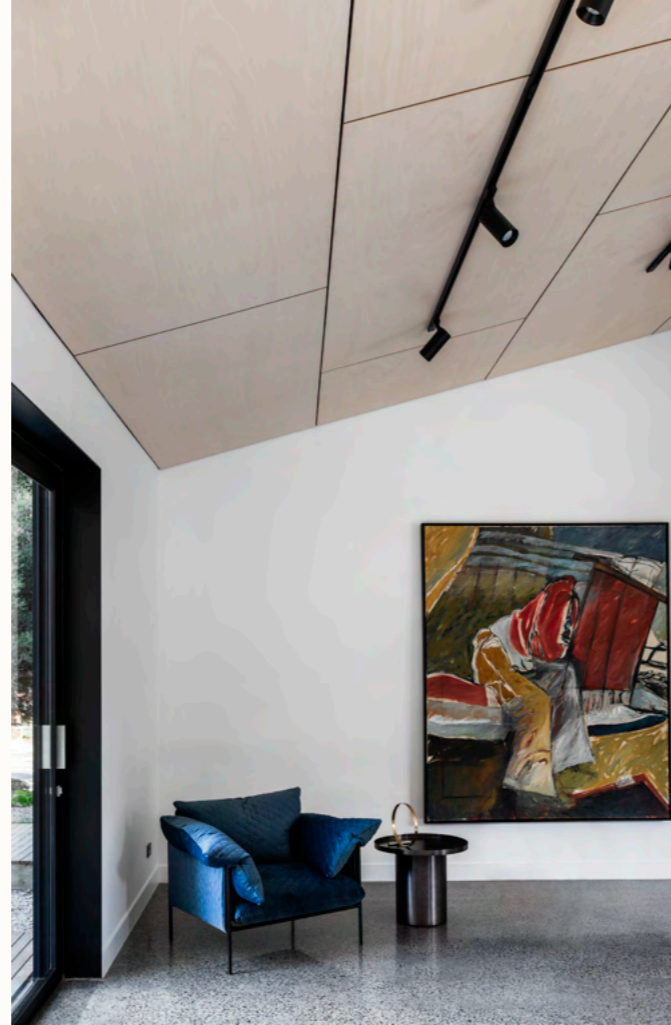

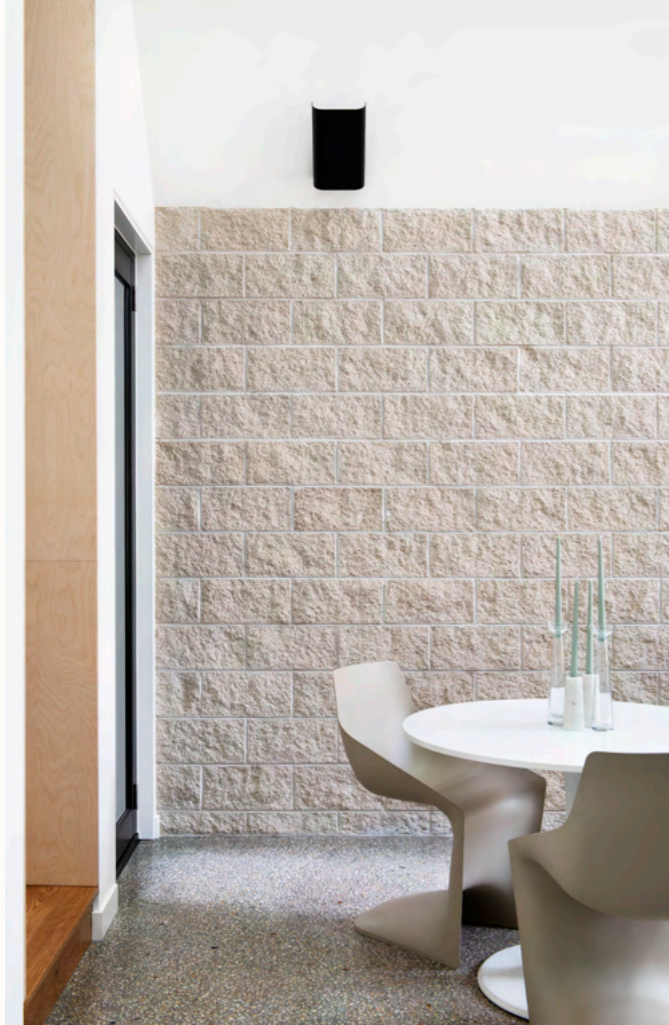

We are obsessed with detail, how light falls, and how great design can expand perceptions of space.

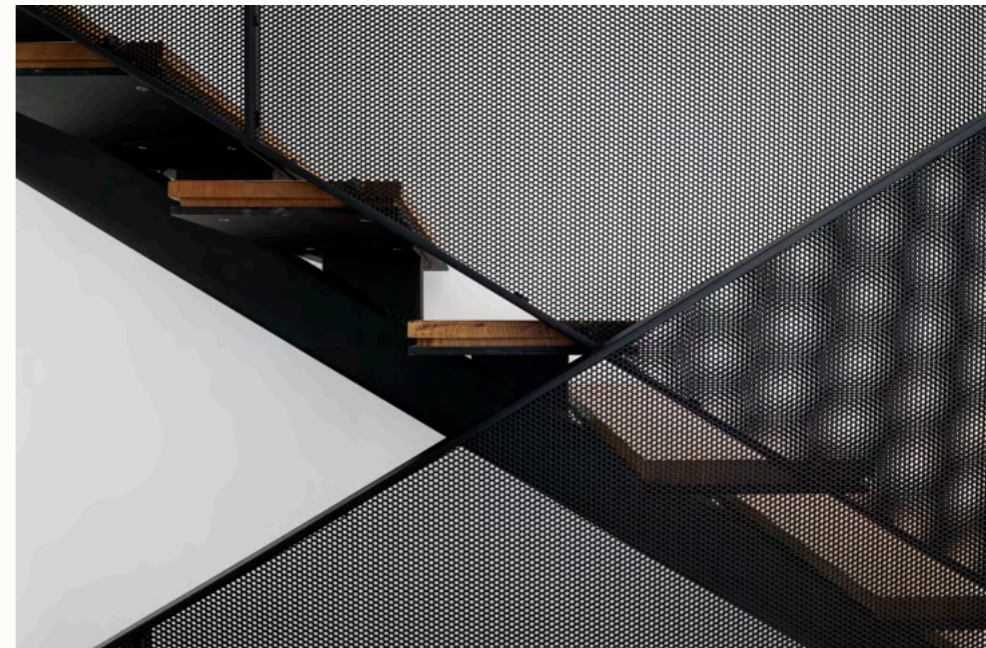

We design buildings
that impress.
We custom design
homes that consider
you and how your
family might grow
and change as well
as incorporating
natural light and
locality.

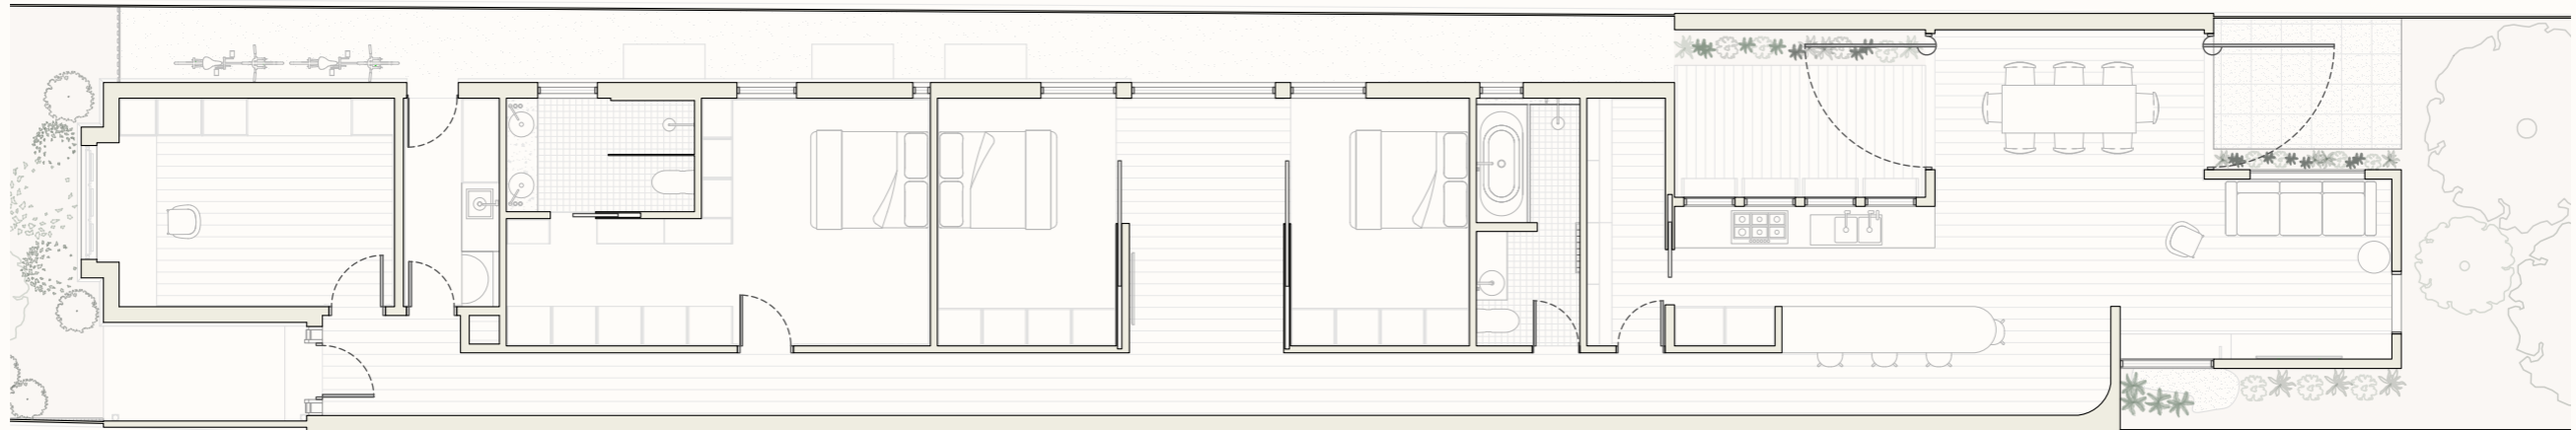

Together with our knowledge and expertise, we take the time to understand your needs to make the right decisions for your home.

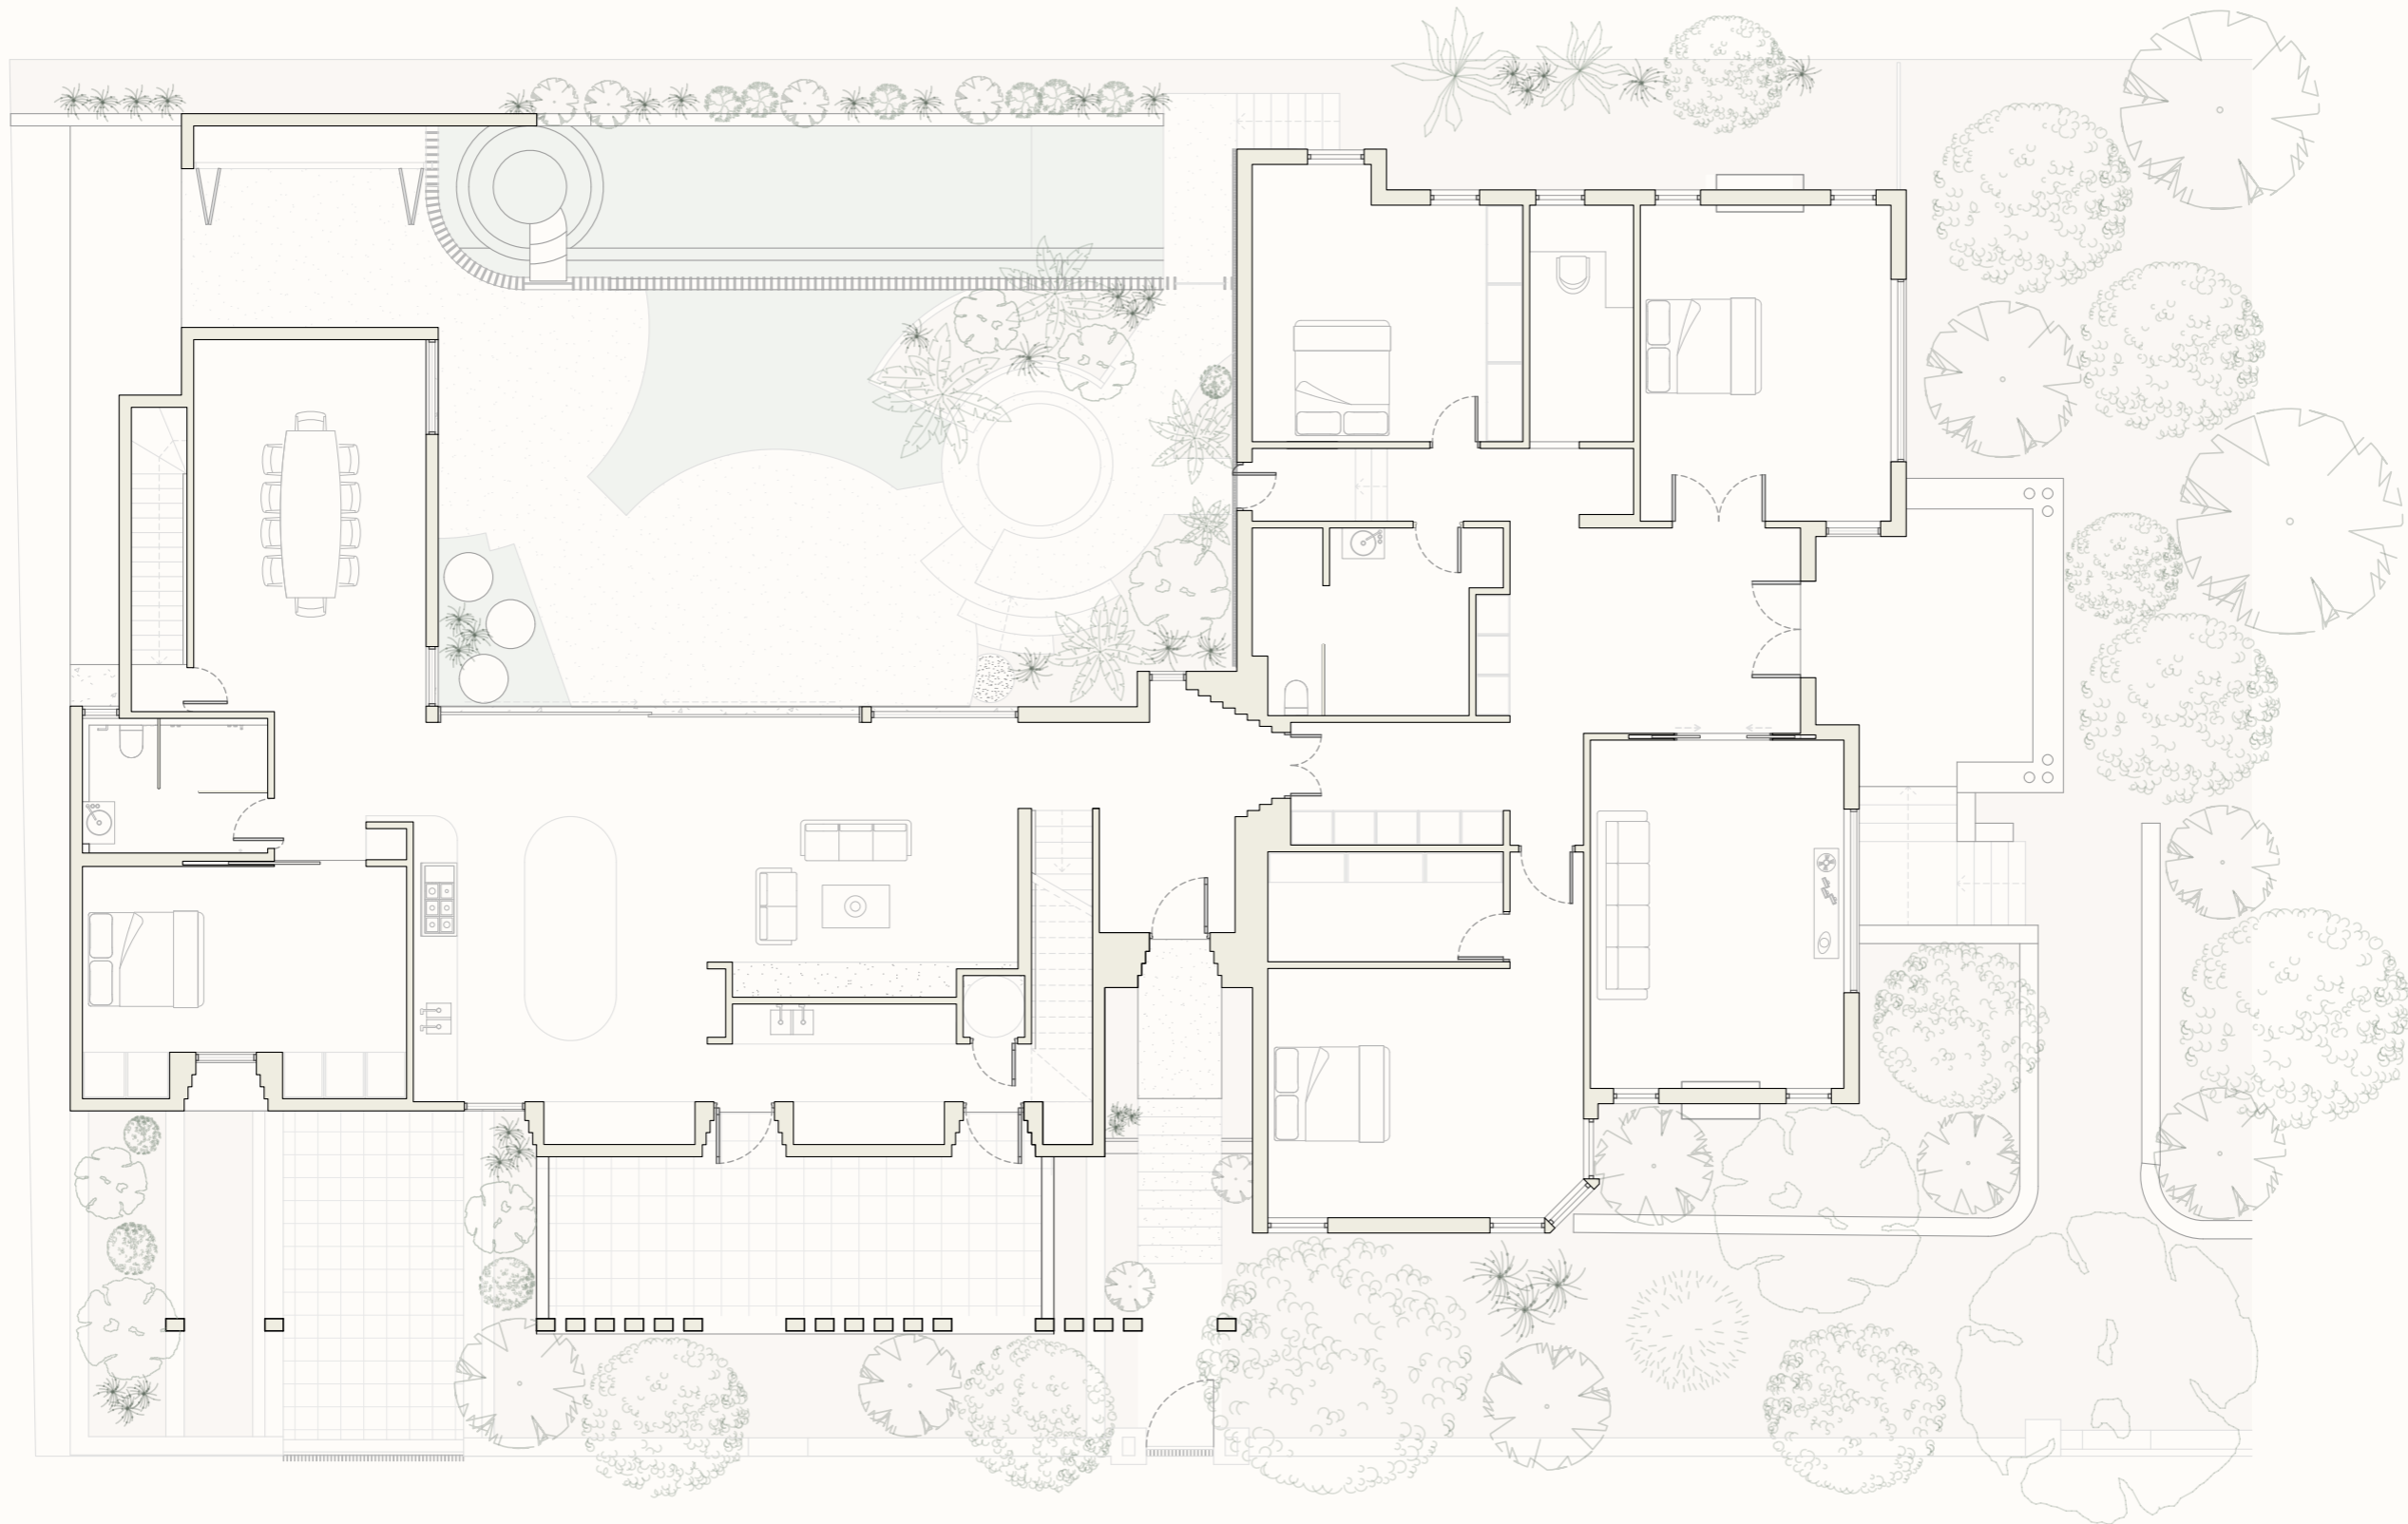

We take great care to ensure that all aspects of our designs are carefully considered and executed. We believe that even the smallest details can make a big impact.

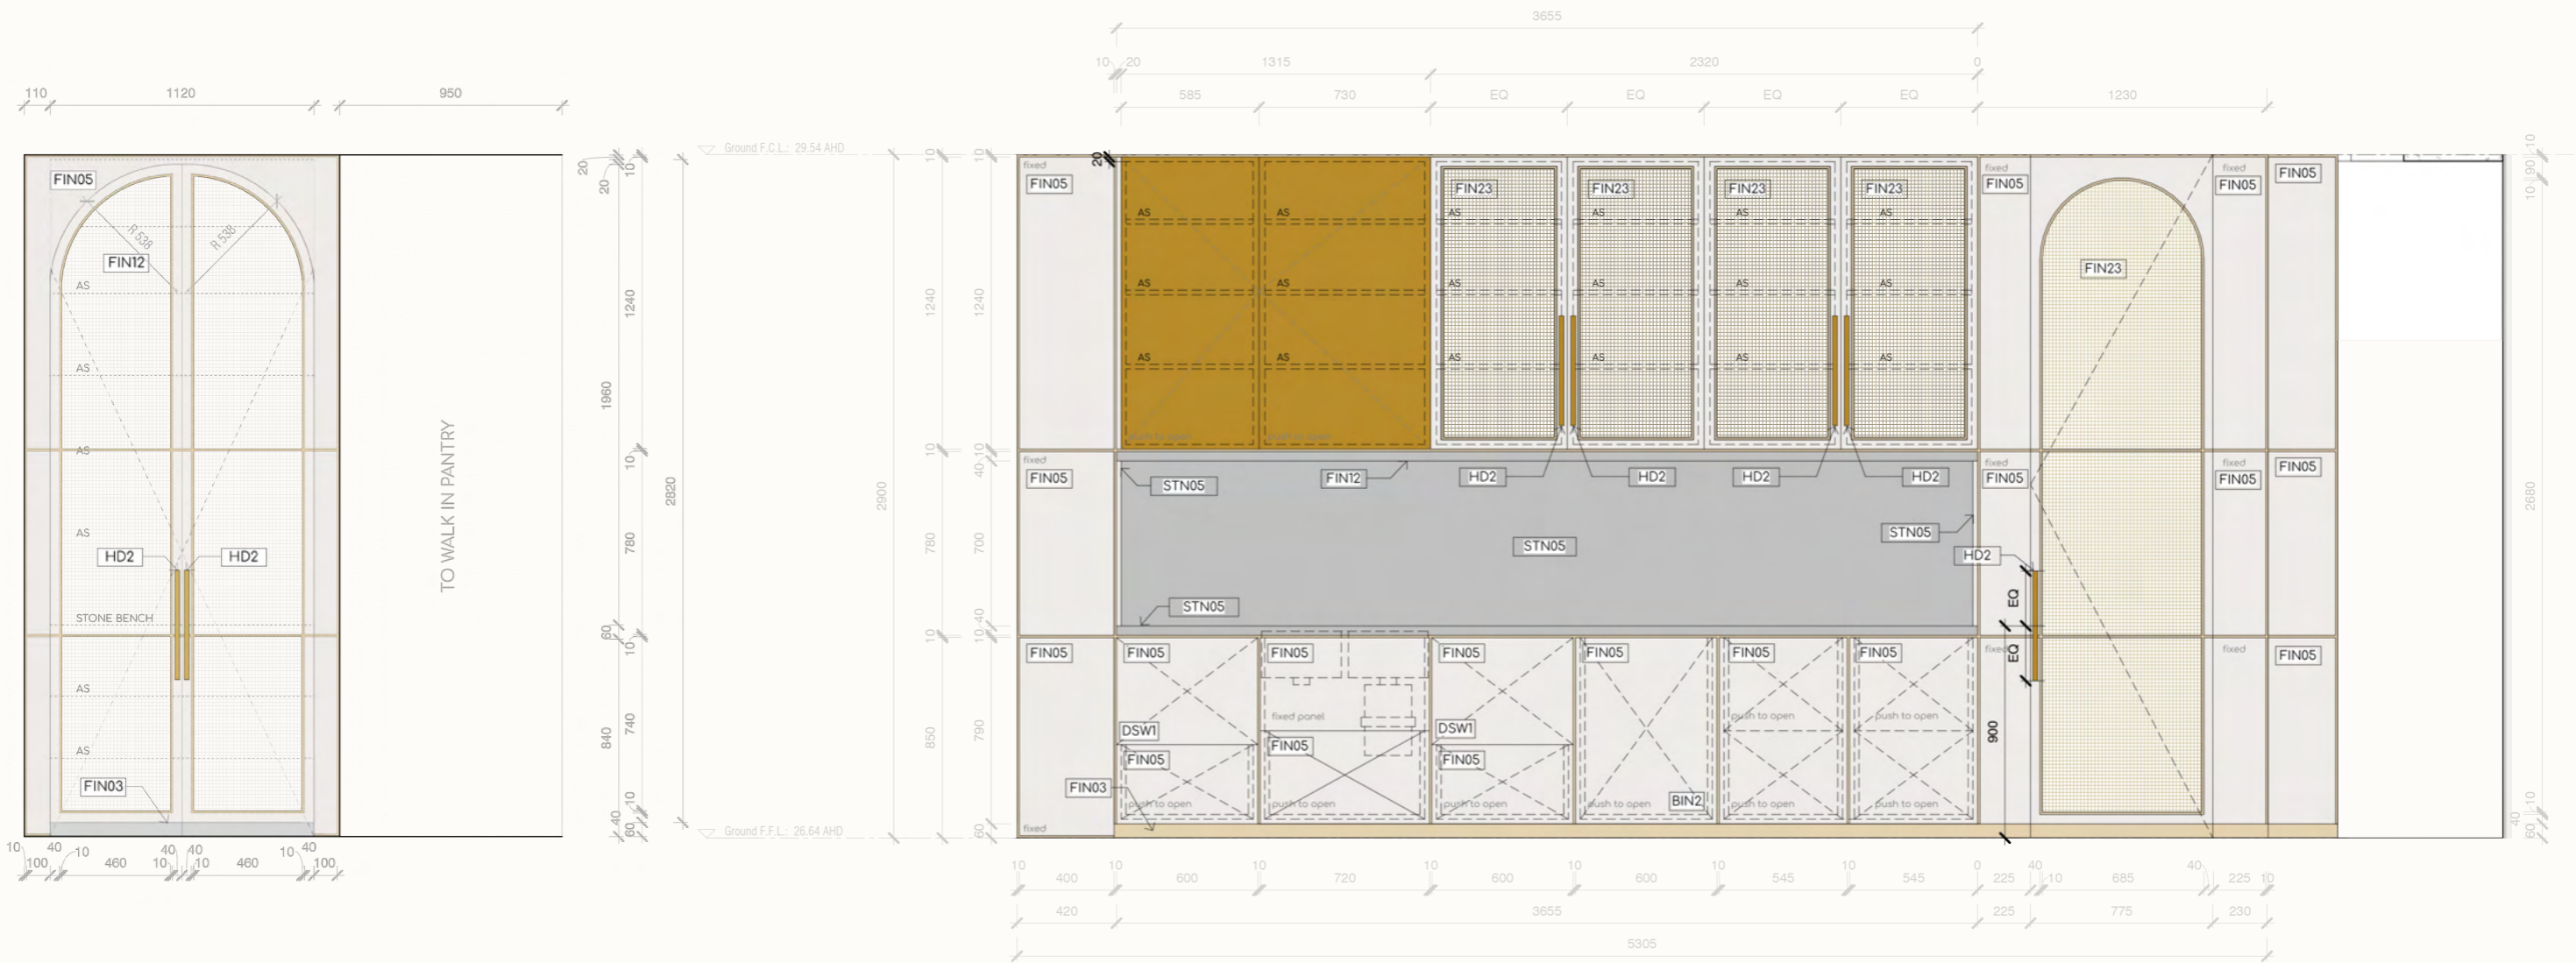

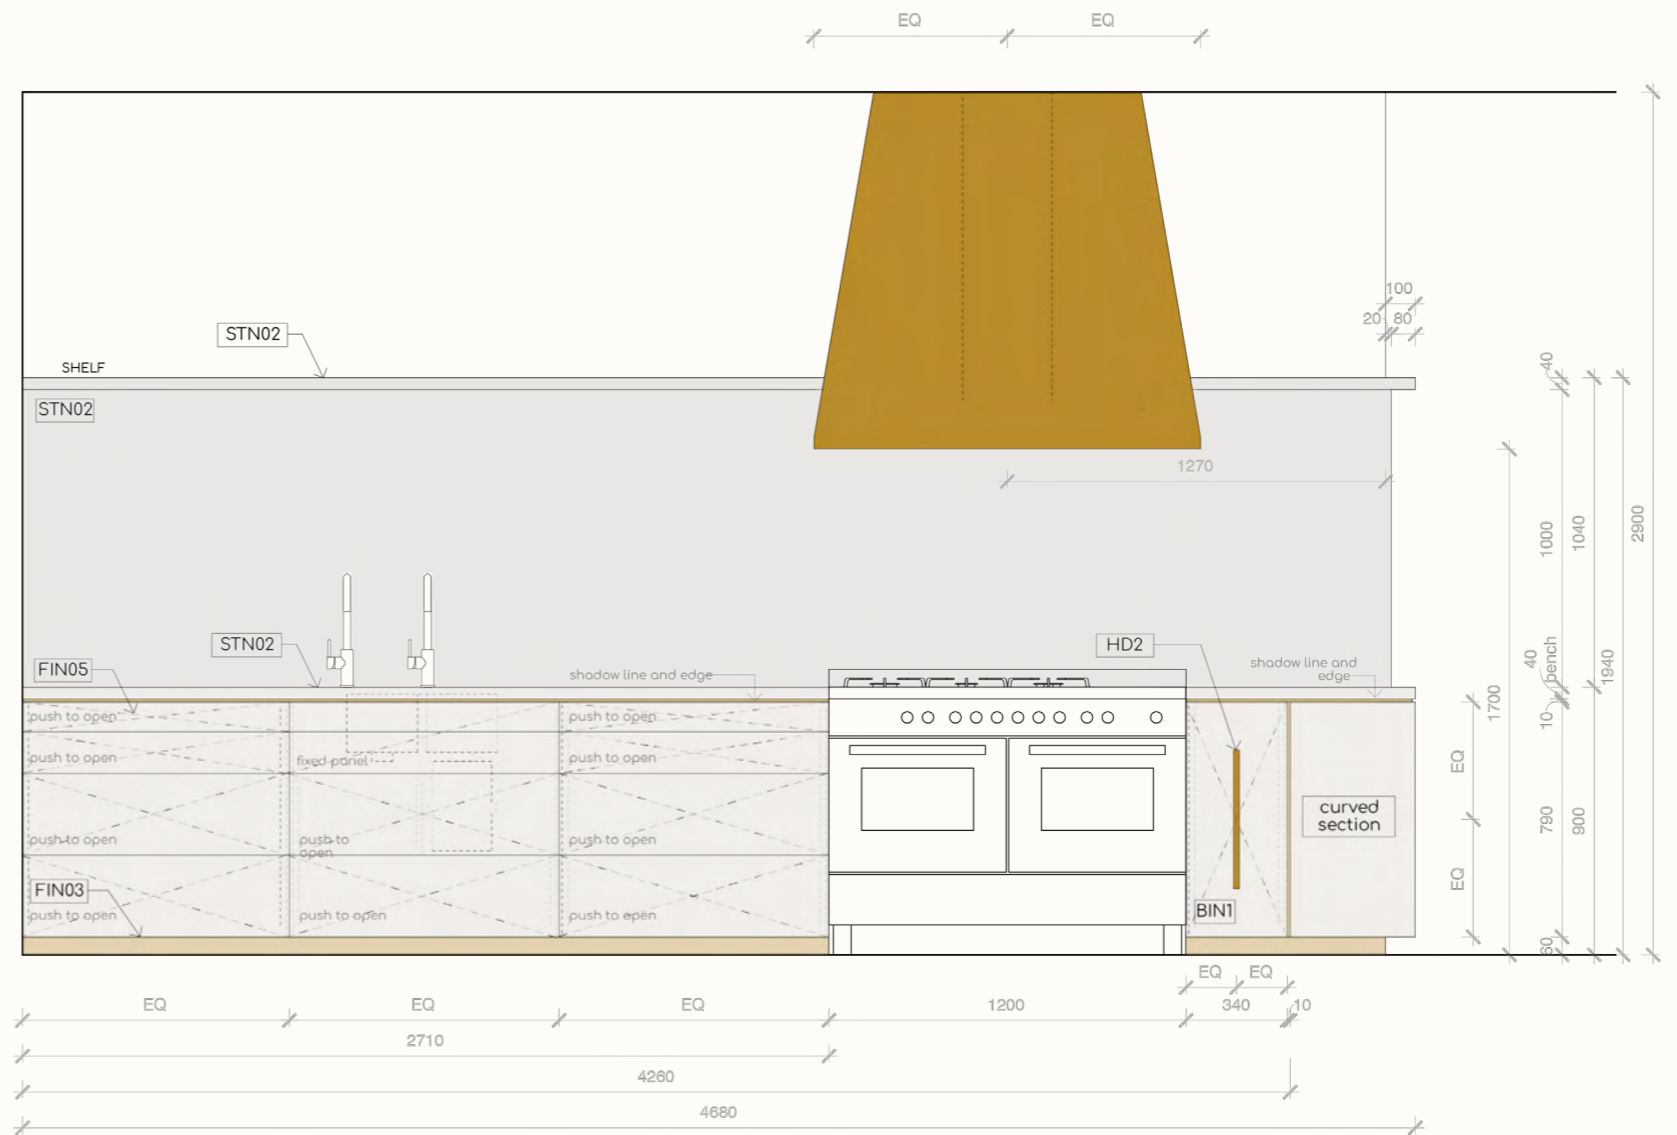

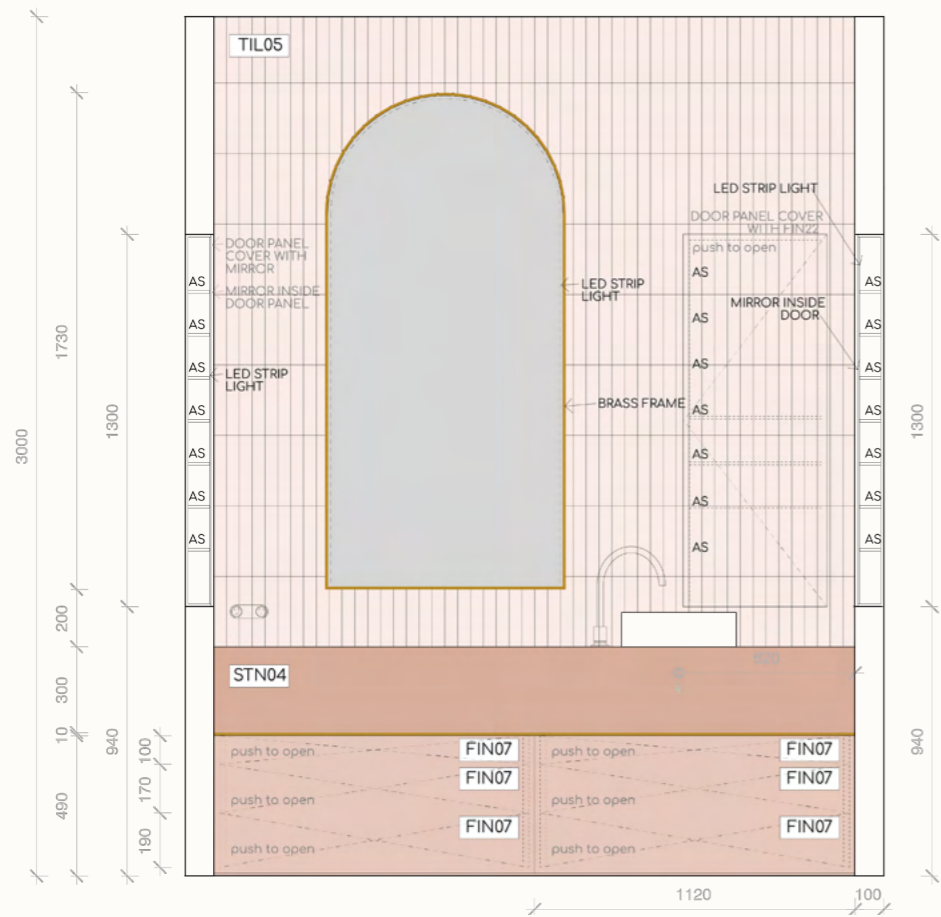

At Wexhaus, we specialize in solving planning and layout challenges. We create beautiful, inimitable spaces to suit the most discerning of tastes, and the most complicated planning restrictions.
